3.0.0 DEVELOPMENT REGULATIONS

- 3.1.0 No Development Permit for any use or *development* or *building* permit for any *building* shall be issued by the Development Authority and no *development* shall occur on the lands until:
 - 3.1.1 The *applicant* has prepared a storm water management plan, dealing with both on-site and off-site storm water, completed by a qualified professional engineer licensed to practice in the Province of Alberta, that is satisfactory to the Municipality, and which shows that the *development* will not adversely affect the *adjacent land*. Further, the storm water management plan shall ensure that post-*development* storm water flows do not exceed pre-*development* storm water flows;
 - 3.1.2 The *applicant* has prepared an overall site grading plan completed by a qualified professional engineer licensed to practice in the Province of Alberta for the entire *development* (that area identified in Schedule 'A') that is based on the storm water management plan identified in section 3.1.1 and the hydrogeological study in section 3.1.4, and which recommends specific grades for the area identified in Schedule 'A', to the satisfaction of the Municipality;
 - 3.1.3 The *applicant* has prepared a Traffic Impact Analysis for the entire *development* (all condominium units contained within Development Cell 'A') completed by a qualified professional engineer licensed to practice in the Province of Alberta, and it has been approved by the Municipality, and further, that all road improvements identified in the Traffic Impact Analysis be completed or financially secured by *letter of credit* by the *applicant* at his/her sole expense;
 - 3.1.4 The *applicant* has completed a hydrogeological study prepared by a qualified professional engineer licensed to practice in the Province of Alberta, that establishes the level of the existing groundwater table, and which recommends and sets *building* grades and elevations to the satisfaction of the Municipality;
 - 3.1.5 The *applicant* has submitted a Construction Management Plan completed by a qualified professional engineer licensed to practice in the Province of Alberta, which details, amongst other items, erosion, dust and noise control measure, construction traffic access, and hours of construction; and,
 - 3.1.6 The *applicant* has submitted a plan to the Municipality which indicates adequate numbers of fire hydrants and sufficient fire-fighting access so that fire-fighting vehicles and equipment can access the site, as well as sufficient fire flow pressures from the fire hydrants, to the sole and unfettered discretion of the Rocky View Fire Chief.
 - 3.1.7 Pedestrian access to the area identified in Schedule 'A' of this bylaw be provided across SH #797 (Centre Street) from the NW-22-23-27-W4M via a pedestrian crossing that is marked and signed, at the sole expense of the *applicant*, and to the sold and unfettered satisfaction of the Municipality.

3.2.0 Servicing Standards

- 3.2.1 No Development Permit for any use or *development* or *building* permit for any *building* shall be issued by the Development Authority and no *development* shall occur on the lands until:
 - the *applicant* has received all necessary permits and/or approvals from Alberta Environment for a wastewater collection and disposal system and water supply system necessary to service the proposed *development*;

- (b) all necessary easements and rights-of-way related to the supply and distribution of power, water and gas have been approved by the Municipality.
- (c) the applicant has submitted a report prepared by a qualified professional engineer licensed to practice in the Province of Alberta, stating that there is sufficient capacity in the Hamlet of Langdon sewage treatment system to accommodate all sewage generated by the proposed development; and further, that this report and its recommendations shall be reviewed and approved by an independent third party professional engineer licensed to practice in the Province of Alberta at the applicant's sole expense, to the sole satisfaction and unfettered discretion of the Municipality;
- Water to each unit in Development Cell 'A' shall be provided via a piped treated surface water supply system in accordance with the requirements of Alberta Environment and the Municipality; and,
- (e) Sewage collection and disposal shall be provided by connection to the Hamlet of Langdon sewage treatment system in accordance with the requirements of Alberta Environment and the Municipality.

3.3.0 Performance Standards

- 3.3.1 Garbage and waste material at any location within the lands shall be stored in weatherproof and animal-proof containers located within *buildings* or adjacent to the side or rear of *buildings* and shall be screened from view by all adjacent properties and roadways.
- 3.3.2 Signage shall be integrated into the site and building architecture and be consistent with the overall development of the lands.
- 3.3.3 Landscaping shall be provided in accordance with a Landscaping Plan to be submitted to the Municipality upon application for a Development Permit. The Landscape Plan shall identify the location, type and extent of all landscaping proposed for the lands, and shall require that a minimum of 10% of the lands be landscaped. Within this landscaped area, there shall be a minimum of one (1) tree for every 50 square metres (538.2 square feet). There shall be a combination of deciduous trees with a minimum caliper of 2.5 inches and/or coniferous trees with a minimum height of 5 feet.
- 3.3.4 Parking and loading facilities, where proposed, shall be provided for in accordance with the requirements of the Land Use Bylaw, except that parking shall be screened and/or landscaped pursuant to 3.3.4 above.
- 3.3.5 No use within any *building* or structure on the lands shall cause or create air contaminants, visible emissions or particulate emissions beyond the *building* that contains them.
- 3.3.6 No use or operation within a *building* shall cause or create the emission of odourous matter or vapour beyond the *building* that contains the use or operations.
- 3.3.7 No use or operation within a *building* shall cause or create the emission of toxic matter beyond the *building* that contains it. The handling, storage and disposal of any toxic or hazardous materials or waste shall be in accordance with the regulations of any government authority having jurisdiction.

3.4.0 Building Standards

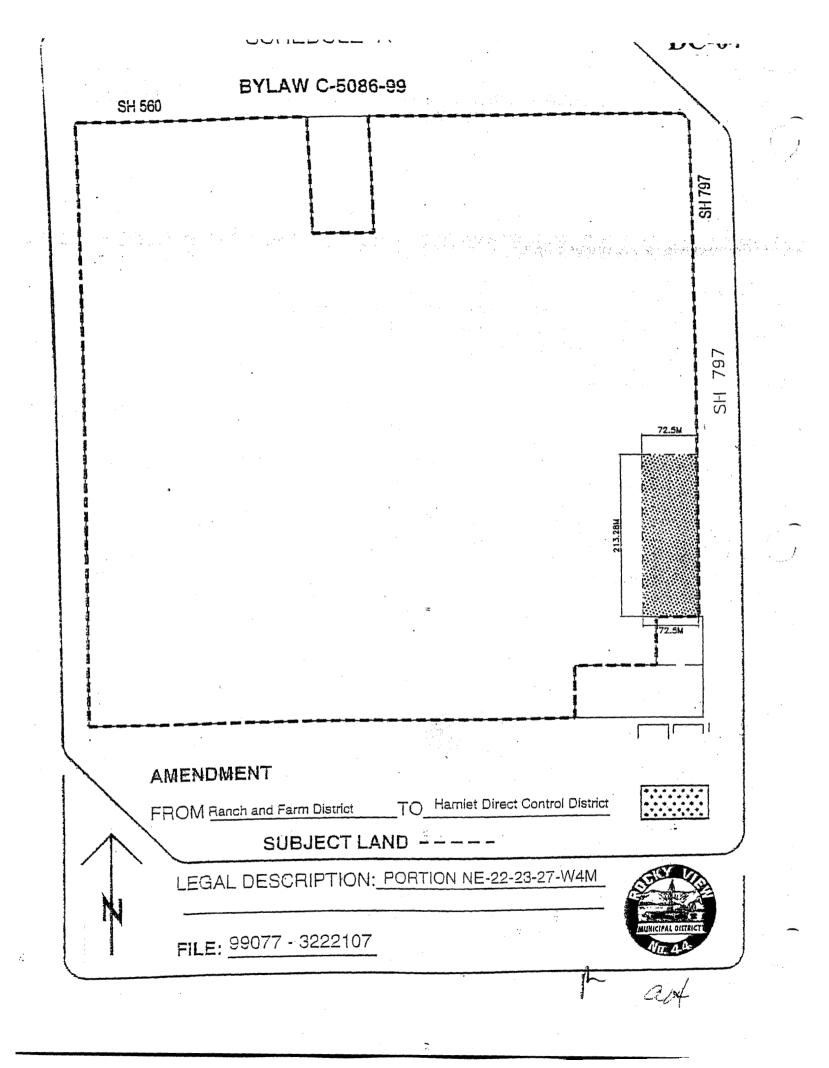

- 3.4.1 The design, character and appearance of any *buildings*, structure or signs proposed to be erected or located on the lands must be acceptable to the Development Authority having due regard to:
 - (a) the general compatibility with the designs of the *buildings* shown on the attached Schedule 'C';
 - (b) the use of traditional and historic *building* materials, such as wood or imitation-wood siding, brick or stone.
 - (c) the *building* massing which should present a profile that reflects the traditional *building* forms associated with a small agricultural community; and,
 - (d) the *building* façade parallel to Centre Street which should avoid long unbroken expanses through the use of architectural detailing and window placement.
- 3.5.0 Notwithstanding section 3.1.0 and 3.2.0 of this bylaw, the Development Authority may issue a Development Permit for stripping and grading without the requirement for advertising as required by the Land Use Bylaw (Bylaw C-4841-97).
