# I. INTRODUCTION

## PURPOSE OF THE PLAN

The purpose of the Kneehill County and Rocky View County Intermunicipal Development Plan (IDP) is to foster a collaborative planning approach for lands along the common border between the two counties (See Map 1). The Municipal Government Act (MGA) mandates municipalities that share a common boundary to develop an Intermunicipal Development Plan.

Municipalities across the Province of Alberta are experiencing unprecedented growth. Local economies based on oil and gas, agriculture and business are thriving, attracting people to live and work in Alberta. More so, rural and regional communities are encountering development pressures.

Shared borders can present potential conflicts if land uses and/or activities are incompatible. When municipalities work in isolation, the land use occurring on one side of the boundary can significantly impact adjacent land uses on the other.

Municipalities are mandated to work together to adopt IDPs to:

- promote consultation, coordination and cooperation regarding planning matters of joint interest within a defined planning area;
- provide a framework for addressing land use concerns with regard to joint planning matters;
- establish procedure for dealing with development proposals within a defined planning area; and
- address any other matters relating to development considered necessary within a joint planning area.

An IDP is a planning tool that can provide numerous benefits to participating municipalities, which may include, but are not limited to the following:

- reinforcing and protecting both municipalities' development philosophies and goals while mitigating the potential for future intermunicipal conflict;
- municipal cost-savings, as a result of infrastructure and service sharing, which also provides residents with a higher quality of life; and
- ensuring development for both municipalities occurs in an orderly, economic, efficient and harmonious manner that is sustainable by considering existing development conditions and future municipal goals.

The Plan contains policy that is to be used as a framework for working cooperatively, communicating and making decisions in each municipality. As such, the IDP must also provide for the following:

- Dispute resolution procedures;
- A process to amend or repeal the Plan; and
- Documentation for administration of the Plan.

These procedures will provide more clarity between the partnering municipalities to ensure the administrative functions required through the Plan are understood. Each municipality is ultimately responsible for making decisions within their own municipal jurisdiction.

## II. MUNICIPAL PROFILES

### ROCKY VIEW COUNTY

Rocky View County is a municipality located in southern Alberta. With clear views to the Rocky Mountains to the west, it is a desirable location to live. Rocky View County is the most populous municipal district in Alberta, with a population of 39,407. It surrounds most of the City of Calgary and is home to 13 hamlets.

### KNEEHILL COUNTY

Kneehill County is located in south-central Alberta, situated between Red Deer County to the north, Mountain View County to the west, and Starland County to the east. The majority of the land is zoned for agricultural uses, allowing the population of 5,001 to enjoy a rural way of life. Oil and gas is the second major industry in the region. The eastern border of Kneehill County runs along the

Red Deer River valley down to the heart of the Canadian Badlands, making tourism a viable market opportunity.

## III. LEGISLATIVE REQUIREMENTS

The IDP was prepared in accordance with the requirements of Sections 631, 636 and 638.1 of the Municipal Government Act (MGA). These sections mandate that an IDP between neighbouring municipalities must be adopted, and that the document address the following items:

- Future land use;
- Future development;
- The provision of transportation systems;
- Financing infrastructure;
- Co-ordination of physical, social, and economic programs;
- Environmental matters; and
- Provision of services.

### *South Saskatchewan Regional Plan (SSRP)*

The South Saskatchewan Regional Plan establishes a long-term vision for the South Saskatchewan Region and aligns provincial policies at the regional level to balance Alberta's economic, environmental and social goals. The regional plan also includes strategies for responsible energy development, sustainable farming and ranching, recreation, forest management, and nature-based tourism. It has been established under the Alberta Land Stewardship Act, and the Land Use Framework. Rocky View County falls within the SSRP area boundaries, and since, pursuant to the Alberta Land Stewardship Act, a regional plan is "an expression of

the public policy of the Government of Alberta”, Rocky View County is required to comply with the regulations of this plan.

#### *Calgary Metropolitan Regional Board (CMRB)*

The Calgary Metropolitan Regional Board was established to promote sustainable and environmentally responsible land-use planning and the coordination of regional infrastructure and services in an economically competitive manner. To this end, the CMRB has adopted a *Growth Plan* to address matters concerning regional planning and development. The Board requires that any statutory plan adopted by a member municipality satisfy the *Growth Plan*. While Rocky View County is a member municipality within the CMRB and is therefore subject to the requirements of this plan, Kneehill County is not. Regardless, Kneehill County and Rocky View County IDP has been drafted in consideration of the principles of the regional plan.

## IV. PLAN AREA

### PLAN AREA CHARACTERISTICS

The Plan Area consists of an area approximately 1.6 km (1 mile) on either side of the shared municipal border. This Plan Area includes approximately 34 sections of land or 8806 hectares (21,760 acres) and is illustrated on Map 2

Key characteristics of the Plan Area include the following:

AGRICULTURE & SOIL

NATURAL LANDSCAPE	
	<ul style="list-style-type: none"> <li>There are limited areas of natural habitat remaining due to agricultural activity</li> <li>There are no Environmentally Significant Areas noted in the subject lands</li> </ul>

## LAND USE DESIGNATIONS

The existing land use designations are determined by each county's land use bylaw and are predominantly agricultural.

## V. INTERMUNICIPAL LAND USE POLICIES

The land use policies contained in this Plan are intended to provide direction to Rocky View County and Kneehill County administration, subdivision and development authorities and Councils to encourage and manage the future development of lands contained within the Plan Area.

### GENERAL LAND USE POLICIES

#### *INTENT*

The general land use policies address matters that apply to the entire Plan Area and are intended to provide an overall guiding direction for the IDP. Each municipality will still maintain complete jurisdiction on lands within their own boundaries.

### *POLICIES*

1. The primary land use in the Plan Area is predominantly agriculture and grazing. Non-agricultural uses should be aligned with each municipality's municipal development plan and should consider interface or transition tools such as fencing, controlled access and site design, environmental stewardship, and environmental education.
2. The municipalities, as per this Plan, shall strive to engage in effective dialogue when considering land use in the Plan Area while still maintaining complete jurisdiction on lands within their own boundaries.
3. The municipalities may collaborate and investigate methods of giving support to projects that may mutually benefit or enhance the quality of life of residents from both municipalities. This could be in the form of in-kind donations, materials, municipal letters of support, unified government lobbying, application for grants, or other more permanent arrangements upon mutual agreement.
4. Both municipalities agree to jointly discuss ways to cooperate with provincial and federal agencies and utility providers to help facilitate the efficient delivery of infrastructure and services that are of a mutual benefit.

### REFERRALS

#### *INTENT*

In order to ensure that the municipalities are aware of potential developments within the Plan Area, notification and communication is required. The following policies establish a referral process where each municipality can provide comments regarding proposed changes.

## ***POLICIES***

1. Where required by the MGA, the relevant Land Use Bylaw and any statutory plans, or the policies of this plan, applications affecting lands within the Plan Area shall be referred to:
  - a. the adjacent municipality; and
  - b. landowners within the adjacent municipality.
2. Where required by the MGA, a relevant statutory plan or land use bylaw, or the policies of this Plan, applications located outside of the Plan Area may be referred to the adjacent municipality.
3. The municipality in receipt of referral of an application within the adjacent municipality should consider potential impact to the following:
  - a. Municipal roadways
  - b. Utilities
  - c. Stormwater and drainage
  - d. Adjacent land use
  - e. Environmental matters
  - f. Other matters
4. Where required by the MGA or the policies of this Plan, both municipalities agree to provide the contact information necessary to refer application information to residents of the adjacent municipality.

## **AGRICULTURE**

### ***INTENT***

Agriculture and grazing will continue to be the primary land use in the Plan Area, and non-agricultural uses should be considered only in such areas where they will not negatively impact agriculture and grazing.

### ***POLICIES***

1. Agriculture and grazing are the primary use in the Plan Area.
2. Both municipalities will strive to work cooperatively to encourage good neighbour farming practices, such as dust, weed and insect control, adjacent to developed areas through best management practices and Alberta Agriculture guidelines.
3. If disputes or complaints in either municipality should arise between ratepayers and agricultural operators, the municipality receiving the complaint shall strive to direct the affected parties to the appropriate agency, government department or municipality for consultation or resolution wherever necessary.

## RESOURCE EXTRACTION & RENEWABLE ENERGY DEVELOPMENT

### INTENT

Resource extraction is recognized as important to the local economy and to the maintenance of transportation routes and other infrastructure. However, impacts from resource extraction operations may affect nearby lands and must be addressed through proper siting and operation practices.

### POLICIES

1. Applications for a new or expanded aggregate extraction operation within the Plan Area shall be referred to the adjacent municipality.
2. Applications for a new or expanded aggregate extraction operation that proposes the use of roadways within the jurisdiction of the adjacent municipality shall be referred to the adjacent municipality. Either municipality may require an agreement regarding the construction, repair, and maintenance of any municipal roads which may be impacted by natural resource extraction development, when the development requires access to come from the other municipality's road.
3. Necessary agreements will be required prior to an application being 'deemed complete'.

4. Applications for a new or expanded renewable energy development within the Plan Area shall be referred to the adjacent municipality. Examples include, but are not limited to; solar power facilities, wind farms, and hydro-electric facilities

However, where development is proposed on these natural features, it will proceed only in accordance with the respective municipality's statutory plans, applicable bylaws, and other municipal policies and regulations.
5. Either municipality shall refer to the other municipality any new or amended municipal bylaw or policy pertaining to environmental or biophysical matters within the Plan Area.
6. The municipalities support the alignment and connection of open space pathways in the defined plan area.

The affected municipality may request to obtain any associated traffic studies and must give its comments in writing within the notification period. If comments are not received within the notification period, it will be determined the municipality has no concerns.

4. The road network shall be maintained by the municipality having jurisdiction, unless a separate agreement specifies joint maintenance, maintenance swap, or any other terms acceptable to both municipalities.

## VI. PLAN ADMINISTRATION & IMPLEMENTATION

3. Address proposed amendments to the Plan;
4. Engage in resolving any conflicts or disputes which arise from this Plan – both municipalities will equally share costs associated with using outside assistance to resolve a dispute; and
5. Address any other land use issues deemed appropriate, but which are not explicitly identified in the Plan.

2. This plan comes into effect following adoption by the respective Councils of Rocky View County and Kneehill County.
3. The municipalities agree to comply with the adopted relevant regional plan strategies.
4. Rocky View County is a member municipality in the Calgary Metropolitan Regional Board (CMRB), and is therefore subject to the requirements of the CMRB and the Interim Regional Growth Plan (IGP). Participation with Rocky View County in the adoption of this IDP does not subject Kneehill County to the requirements of the CMRB and the IGP.
5. Amendments to the IDP shall receive direction from both Councils prior to proceeding and shall be jointly prepared by both administrations.
6. Amendments to the Plan shall not come into force until they are adopted by the Councils of both municipalities, in accordance with the requirements of the MGA.
7. A Bylaw to repeal this IDP may be considered by both Councils if:

municipality has the right to make decisions within their boundaries, it is acknowledged that these decisions can have an impact beyond their borders.

6. Should the Chief Administrative Officers fail to resolve the dispute, the dispute will be referred to the Committee.
7. The Committee will convene to consider and attempt to resolve the dispute by consensus. In the event a resolution is not achieved by the 30<sup>th</sup> day following the first meeting of the Committee, either municipality may refer the dispute to mediation.
8. The formal dispute resolution process may only be initiated by either County Councils.
9. The services of a mutually agreed upon Mediator will be retained, with the mediator to present a written recommendation to both Councils. The costs of mediation shall be shared equally between both municipalities.
10. Should a dispute involve an application subject to Section 690(1) of the MGA, the municipalities may submit an appeal to the Municipal Government Board within 30 days of adoption in order to maintain the right to appeal.
11. Notwithstanding the above, the appeal may be withdrawn prior to the Municipal Government Board hearing should an agreement be reached to the satisfaction of the municipalities.
