

RESIDENTIAL RESILIENCE GRANT

Funding Application

Building disaster resilience is a critical aspect of Rocky View County's sustainability. Rocky View County developed a Regional Resilience Project in partnership with the Canadian Red Cross Society in order to build the region's resilience and to improve our ability to prepare for, respond to, and recover from disasters. As a part of this project, grants are being provided to individual households to build their resilience to fires and floods by offering fire and flood home protection assessments and improvements. To learn about how to get an assessment, please go to www.rockyview.ca/protect.

After receiving an assessment, residents can apply for the limited home improvement grants by completing and submitting this form along with a copy of your home assessment.

APPLICATION REQUIREMENTS

Applicants must:

- Be residents of Rocky View County, the Village of Beiseker or the Town of Crossfield.
- Had a certified fire and/or flood home protection assessment completed. Recommendations on improvements should match the improvements requested in this application.

Mandatory Attachments

1. A completed Residential Resilience Grant Application Form.
2. FireSmart and/or flood home protection assessment report.

Application Review Process and Timelines

The County Selection Committee will review all requests, and applicants will be advised of the Committee's decision within four weeks of the application submission.

Submit completed applications to, or for further assistance contact:
