- (d) A landscaped strip of at least 4.00 m width shall be provided in front yards and side yards adjacent to a road. Alternate configurations that provide for equivalent area of *landscaping*, with a minimum width of 1.00 m, may be allowed at the discretion of the *Development Authority*.
- (e) For the purposes of determining the number of trees and shrubs required in a *setback* area, parts of *setback* areas that are paved for vehicle access, sidewalks or any other purpose allowed by the *Development Authority* are included in the calculation of the required area even though they are not capable of sustaining trees and shrubs.
- (f) If the minimum required *setback* area is not capable of sustaining the required trees and shrubs, additional area on the *parcel* must be provided for the trees and shrubs.
- (g) Existing *landscaping* or natural vegetation should be conserved, and may be relocated on *site* as shown on the *Landscaping Plan*, and will be used to meet the requirements of this *Bylaw* unless removal, in the opinion of the *Development Authority*, is necessary to efficiently accommodate the proposed *development*.

Construction, Maintenance, and Securities

- (l) The Owner of the property, or his/her successor or assignees, *shall* be responsible for *landscaping* and proper *maintenance*. As a condition of a *Development Permit*, an Irrevocable Letter of Credit *may* be required, up to a value of 150% of the estimated cost of the proposed *landscaping*/planting not yet complete, to ensure that such *landscaping*/planting is carried out with reasonable diligence. The conditions of the security being that:
 - (i) Occupancy is being requested prior to completion of the landscaping requirements;
 - (ii) Landscaping is considered complete at the discretion and satisfaction of the *Development Authority*;
 - (iii) The *landscaping shall* be completed to the satisfaction of the *Development Authority* within one year of occupancy;
 - (iv) If upon occupancy, the *landscaping* is not completed within one year, in accordance with this *Bylaw* and the *Landscaping Plan*, then the *County* *may* use the security to complete the approved landscape *development*;
 - (v) If the *landscaping* does not survive, the owner or his/her successor or assignees must replace it as per the site maintenance procedure, or with a similar type of species and with a similar calliper width, or forfeit the portion of the amount fixed equal to the cost of replacing the affected *landscaping* materials; and
 - (vi) The letter of credit will be released when the *landscaping* and other improvements have been completed to the satisfaction of the *Development Authority* and the three-year maintenance period has expired.
- (m) The *landscaping* will be maintained over the life of the *development*, as per the *site maintenance* procedure, and any deceased vegetation will be replaced within 30 days or before June 30 of the next growing season.

Planting Standards

- (n) On the advice of a Landscape Architect or Arborist, and as demonstrated through a *Landscaping Plan* acceptable to the *County*, planting standards *may* be altered to suit unique *site* topography, soils, or micro-climatic conditions.

Vegetation Types, Mixture, and Irrigation

- (o) Water conservation measures should be done with consideration of the Stormwater Management Plan to achieve an effective solution which incorporates on-*site* use of stormwater for landscape irrigation.
- (p) The use of water efficient *landscaping* and *xeriscaping* is strongly encouraged, which includes the use of drought-tolerant indigenous vegetation, such as trees,

shrubs, forbs, hedges, grasses, and other ground cover, in conjunction with permeable or pervious surfacing material, such as brick, stones, wood, organic mulch, and similar indigenous *landscaping* materials.

- (q) The use of Kentucky Bluegrass (*Poa pratensis*) for *landscaping* is strongly discouraged. The use of indigenous fescue grasses is strongly encouraged.
- (r) Noxious or restricted weeds, or invasive plants, as outlined by the Alberta Weed Control Act, *shall* not be used for *landscaping* vegetation, and if established, should be controlled as outlined in the Act.
- (s) The publication “A Guide to Using Native Plants on Disturbed Soil” by Alberta Government should be referenced for information on the use of native species.
- (t) Up to 50% of the required number of trees may be substituted with shrubs at a ratio of 3 shrubs to 1 tree for deciduous trees, and 4 shrubs to 1 tree for coniferous trees, providing that any associated *screening* requirements are met to the satisfaction of the *County*.

Planting Beds

- (u) Trees or shrubs should be clustered or arranged in planting beds within the *site*.
- (v) Sixty percent (60%) of the *landscaping* will be in the form of planting beds that shall be composed of a mixture of a minimum of five (5) coniferous and deciduous trees or shrubs.
- (w) Planting beds *shall* consist of vegetation planted in a mulched medium such as bark chips, rocks, or similar material. Vegetation *shall* be a composition of an odd number of trees mixed approximately 50% coniferous and 50% deciduous with shrubs. Mulch *shall* not be used as a substitute for plant materials.

Parking Areas

- (x) A parking area having 8 or more parking spaces and which is visible from an adjacent *site* in a residential district or from a road other than a lane *shall* include perimeter landscape forms and, if required, islands and boulevards in accordance with the *Landscaping* Plan approved by the *County*.
- (y) Parking islands and boulevards *shall* be placed to provide visual relief and to organize large areas of parking into smaller cells, with the purpose of breaking up the expanse of parking surface coverage with significant areas of *landscaping*, pedestrian pathways, sidewalks, boulevards, stormwater management facilities, and/or other features. The number of islands and boulevards provided *shall* be to the satisfaction of the *County*.
- (z) *Landscaping* within, adjacent to, and at the perimeter of parking areas *shall* be provided to:
 - (i) Visually subdivide and ‘break-up’ large parking modules into more pedestrian-oriented, legible, and visually comfortable spaces;

- (ii) Soften the edge condition of parking areas to maintain and enhance view satisfaction for motorists on perimeter and internal roadways and adjacent parcels; and
- (iii) Potentially accept a portion of surface stormwater flows to 'absorbent' landscape 'bio-swales' with the dual objectives of providing water for landscape plants and delaying/reducing stormwater flows to the ultimate receiving body (note: 'bio-engineered' stormwater systems need to be designed by a qualified Professional Engineer).

Screening

- (aa) All sites abutting a residential district *shall* be buffered and screened to the satisfaction of the *County*.
- (bb) Where *screening* is required, *landscaping*, and materials *shall* be utilized to soften the visual impact, to the discretion of the *County*, and *may* include vegetation, *fences*, earth *berms*, architectural *building* components, masonry walls, other similar materials, or combinations thereof.
- (cc) Any *screening* shall be maintained to provide effective *screening* to reduce the visual impact, from the ground to a height of 3.00 m (9.84 ft.).
- (dd) Fencing of 50 m length or more, where adjacent to residential areas or a public road, should be enhanced to provide visual interest through the addition of *landscaping*, offsetting, a variety of *screening* materials, or be architecturally designed, to the discretion of the *County*.
- (ee) *Berms* should be undulating in nature with the trees and shrubs located in the lower areas where stormwater runoff can be utilized for irrigation purposes.
- (ff) The entire perimeter of any bulk outdoor storage or *mini-storage* area *shall* be *fenced* or walled for security purposes. The location of the fencing *shall* be around the *storage area* and should not be on the property boundary in order to provide space for *landscaping*.
- (gg) All outdoor storage or *mini-storage* areas screened with hard materials, such as fencing or walls, *shall* incorporate the following *landscaping* in order to soften the *screening*. Where this section conflicts with any other sections of this *Bylaw*, this section will take precedence:
 - (i) All required *landscaping* trees should be coniferous;
 - (ii) All required *landscaping* shall occur at the perimeter of the storage area, within the subject property, but located outside of any fencing or similar structure;
 - (iii) Shrubs and deciduous trees may also be incorporated to create clusters around the coniferous trees;

- (iv) If adjacent to a residential district or a public road, or visible from a public road, additional *landscaping* may be required on those sides adjacent to a residential district, public road, or visible from a public road, to the satisfaction of the *County*; and
- (v) If an established shelterbelt can provide sufficient screening through all seasons, it may be considered in lieu of coniferous trees as stated in 26.11.33(a).
- (hh) **Outdoor Display**
 - (i) Display areas *shall* not be wider than 20% of the width of the front property line to a maximum width of 20.00 m (65.61 ft.);
 - (ii) Where 20% of the width of the front property line is less than 5.00 m (16.40 ft.), a minimum width of 5.00 m (16.40 ft.) of display area *may* be allowed;
 - (iii) **Outdoor Display areas are:**
 - 1. to be integrated with the *landscaping*;
 - 2. to be a minimum of 15.00 m (49.21 ft.) from any *road, County, and road, highway*; and
 - 3. to be 8.00 m (26.25 ft.) from any road, internal subdivision, or road, service adjacent to a *road, highway or road, County*.

SECTION 27 LIGHTING OF SITES/DEVELOPMENTS

- 27.1 All outdoor lighting for any *development shall* be located and arranged so that no direct rays of light are directed at any adjoining properties, interfere with the use and enjoyment of neighbouring lands, or interfere with the effectiveness of any traffic control devices or the vision/safety of motorists.

27.2 Business Development

The intent of this section is to encourage lighting practices and systems that minimize light pollution, glare, and light trespass onto adjacent properties, while maintaining night-time, on-site safety and security, and allowing for product display during evening operating hours. The intent is to ensure that all light fixtures are installed to maximize their effectiveness on the targeted property and to minimize their adverse impact beyond the property. It is not the intent of this section to require the complete screening of indirect light on adjacent properties or to eliminate all light trespass, but to minimize light trespass and to avoid direct glare onto surrounding properties.

- (a) Outdoor lighting on any *development shall* comply with the following provisions:

**Illustrations showing

 - 3. Industrial - Industrial Activity (I-IA);
 - 4. Industrial - Industrial Storage (I-IS);
 - 5. Business - Industrial Campus (B-IC) District where there exists outdoor storage use;
 - 6. Recreation Business District (B-4); and
 - 7. Public Services District (PS).

where the maximum is to the discretion of the *County*;

LUB 11/12/2012

- (iii) the developer, at the discretion of the *County*, *shall* provide a plan, completed by a qualified professional, indicating the location of all exterior lights, a description of any measures taken to shield direct glare onto adjacent properties, and the projected light patterns in relation to adjacent properties, roadways, and developments;
- (iv) no flashing, strobe, or revolving lights, which may impact the safety of motorists using adjacent public roadways, shall be installed on any structure or site unless otherwise required for the safe and efficient function of an airport;
- (v) no light shall result in adverse effects on the safe and efficient function of an airport or highway;
- (vi) notwithstanding (a), light fixtures may be directed upward to illuminate buildings or *landscaping* or for decorative purposes, but such lighting shall have at least ninety (90) percent of its total distribution pattern within the profile of the illuminated object;
- (vii) direct glare *shall* not be visible to adjacent *buildings* or nearby land or be perceptible to persons operating motor vehicles on public roadways, and *shall* be judged by whether the illuminating device (i.e. bulb) is visible from the property line or beyond.

- (b) Illumination levels shall not exceed the levels recommended by the Illuminating Engineers Society of North America (IESNA).
- (c) At the discretion of the *County* and in the opinion of a qualified professional, the requirements of this section may be altered if the proposed design is found to be within the standards of the Illuminating Engineers Society of North America (IESNA).

SECTION 28 ACCESSORY BUILDINGS AND USES

- 28.1 Other than provided for in Section 7, and Part 4 of this Land Use *Bylaw*, *accessory uses* and *buildings* are *discretionary* in any Land Use District, whether or not the *principal use* they are accessory to is a *use, permitted, or discretionary*.

LUB 13/10/2015

LUB 11/12/2012

- 28.3 On a *parcel* over 16.00 hectares (40.00 acres) that contains an agricultural use, *portable* cylindrical *grain bins* and 3-sided stock shelters less than 27.87 sq. m (300.00 sq. ft.) are not required to meet minimum *setback* requirements, except no bins or stock shelters *shall* be placed within 30.00 m (98.42 ft.) of a corner of the *site* that is formed by the intersection of two roads.

unless the ground elevation adjacent to and within 5.00 m (16.40 ft.) of the *building* or structure is 1.00 m (3.28 ft.) above the 1:100 year flood elevation as determined by Alberta Environmental Protection. The placing of fill within the 1:100 year *Flood Hazard Area shall* not be *permitted* unless and until Alberta Environmental Protection has determined that the placing of the fill will not have a detrimental effect on the flow of water, either in the *watercourse* or on *adjacent lands*.

LUB 13/10/2015

the *Riparian Protection Area*. The *Development Permit* conditions may include, but are not limited to:

- (a) Preservation of natural vegetation;
- (b) Sediment and erosion control during construction;
- (c) Siting of construction equipment away from the *watercourse(s)*; and
