YOUR COUNTY

The Operating Budget isn't just numbers. It's firefighters and snowplow drivers and the tools they need to serve and keep us safe. It's enforcement and agriculture services, parks and recreation. It's the people who help residents plan and build for their futures and the amenities that make Rocky View County a great place to live. If the Capital Budget builds Rocky View County's future, the Operating Budget brings life to what we build.

Strategy and Performance translates the hopes and dreams of residents into a County Plan and cascading strategies to stay the course. Financial and Corporate Services ensures that the County's resources are properly deployed today and for the future. People and Culture creates the conditions for our staff to be successful as they serve our communities. Communications and Engagement is the connection across the entire organization that tells the County's story and path we share. Inspiring this collective work is the vision Council has built together with Rocky Viewers, through ongoing public engagement and day-to-day connections with residents and the business community.

This is a vision of a healthy County: a place with community and personal wellness that embodies and promotes equality for all. A place where people and businesses thrive.

STRATEGIC PLAN AND PRIORITIES

Rocky View County continues to work towards implementing the vision, mission and strategic objectives laid out in Council's Strategic Plan - *Leading Rocky View County: Council's 15 to 20 Year Strategic Plan* released in May of 2019.

The three strategic themes underpinning the plan that identifies Council's vision for community success are Service Excellence, Financial Health, and Responsible Growth. For 2023, the key focus of the organization is to continue advancing nine Council priorities identified when Council refreshed and revisited their Strategic Plan. These priorities are:

SERVICE EXCELLENCE — Commitment to listening to customers and reviewing policies and procedures so that customers can navigate our process easily and efficiently.

Governance Improvement: To create a forum for Council to receive updates and discuss strategic and governance matters.

Strategy Refresh: To identify measurable strategic outcomes to support actioning the County's existing strategic goals.

Service Capacity Review: To develop a Service Definition Framework based on the Municipal Reference Model (MRM) principles, allowing the County to consistently define, manage, benchmark, and communicate information about services.

Organizational Excellence Strategy: To develop a County People Strategy and prioritized roadmap of strategic actions that will attract, develop, retain, and inspire our workforce.

FINANCIAL HEALTH — Provide transparency in our financial decision-making and share how we will mitigate economic risk. The County will find ways to manage and recover costs while saving for the County's future needs.

Long-Term Financial Forecast: To develop a long-term financial forecast for the County to provide insight into future financial capacity, shift organizational thinking towards consideration of longer-term implications, and to be more strategically focused on community objectives.

Soft Levy Update: To develop a framework and formula to assess and calculate soft levies that is in alignment with the provisions of the *Municipal Government Act* (MGA) and is well defined, practical and vetted through the development community.

RESPONSIBLE GROWTH — Having a vision for growth and a clear understanding of how decisions affect the County's finances, infrastructure, and environment for current and future generations.

Solar Farm Strategy: To develop strategy on solar farm development in the County.

Area Structure Plans: To provide an update on County Area Structure Plan's that are in progress.

Economic Development Strategy: To develop a County Economic Development Strategy.

COMMUNITY AT A GLANCE

Rocky View County's population steadily increased over the past ten years at an average rate of 2.1 per cent. Today, the County's population sits at just over 43,000 according to the Alberta Municipal Affairs Population List, which uses a combination of Statistics Canada and municipal census data.

Despite some of the recent economic challenges in Alberta, the county continues to see positive population growth.

In addition to the County's population growth, we have also seen an increased level of diversity in the population. Since 2006, the number of visible minorities calling the County home has increased from approximately seven per cent in 2006 to approximately 11 per cent in 2016 according to the most recent Statistics Canada census data.

The largest cohort of the County's population are those between the ages of 40 – 65. Population growth and the demographic changes of that population are important considerations for how the County delivers and plans future services for its residents.

CITIZEN SATISFACTION SURVEY

Citizen satisfaction surveys are one of the most effective tools local governments have for understanding citizen's needs, concerns, and priorities. These surveys provide a scientific form of public consultation that ensures municipalities hear from a broad range of citizens rather than just a vocal minority. In addition to assessing the overall pulse and mood of the community, these surveys can be used to guide strategic decision making around long-term planning, priority setting, budgeting, communications activities, and issue management.

Key Findings and Recommendations within the 2022 Citizen Satisfaction Survey Report are:

Quality of Life

- Most residents feel they have a good/very good quality of life (89%) in Rocky View County and that it has stayed consistent over the past three years (70% agree).
- Among those who feel their quality of life improved (8%), having a good lifestyle/country living was the top reason (25%). Among those who feel their quality has worsened, the top reasons were traffic congestion/closed roads/diverting routes (35%) and overdevelopment/urban sprawl (18%).

Key Issues and Improvements

- Key issues that residents believe should receive the greatest attention are planning for future growth and development, over development, and issues with addressing crime and crime prevention.

Programs and Services

- Residents of Rocky View County are mixed on their level of overall satisfaction with the quality of services and programs (49% satisfied), suggesting an opportunity to improve the quality of various services and programs.
- Satisfaction is lowest with planning services (46%), road maintenance (26%), and municipal enforcement (26%).

Information and Communication

- Residents are split on feeling they either receive too little information (50%) or just the right amount (50%), and none feel they receive 'too much' information.
- Ensuring information is available and easily accessible for new developments and construction in the area (91%), County service updates (78%), Council decisions and meeting updates (76%), and local events and opportunities (71%) is recommended as these are the most important types of information to residents.
- Having both online and offline forms of communications is critical as just over one quarter (27%) of residents' report having poor/very poor internet access.

Resident Engagement

- While most residents are providing their input on issues of importance (70%) and feel that they have the opportunity to voice their opinions (52%), few feel their feedback is taken into account for decisions (31%) and that they hear how their input affects decisions (23%).
- Providing more transparency on how feedback is used and how it impacts decisions may help residents feel that their feedback is valued and heard.

Benchmarks to Rural Alberta

- Rocky View County residents are on par with the Rural Alberta benchmark for overall satisfaction with quality of programs and services. The County is also on par for perceived value received from municipal property tax dollars.

It is important to recognize that the Citizen Satisfaction Survey also collects data on topics that are beyond the sole responsibility of Rocky View County. As reflected in the survey findings, some of the most important issues facing the County today, such as urban sprawl and crime prevention, require a collaborative response and are not the sole purview of one organization or level of government.

2023 OPERATING BUDGET

FINANCIAL HEALTH

The County strives for financial sustainability on many fronts. Through management of reserves, debt, and conservative property taxation increases the County has been able to provide an environment where it has been successful in attracting economic development.

This success does come with challenges which requires a longer-term look into the future to remain sustainable. To address this challenge, the County is currently undertaking a study into our built assets and what our future financial obligations will be. This information will inform future financial planning.

In the short-term, there are indicators that the County and other organizations measure to ensure we are on the right track. Alberta Municipal Affairs produces an annual “sustainability report card” on all municipalities. The report looks at 13 tests, both financial and non-financial, that are used to measure different aspects of a municipality’s governance, finances, and community. Figure 1 below shows these measures, along with the County’s 2022 results.

Figure 1

Indicator and Description	Expected Result	What It Means	Rocky View County Result
Audit Outcome An audit report of the municipality’s annual financial statements.	No concerns identified.	Audit completed No specific concerns about the ability to meet financial obligations identified.	No concern.
Ministry Intervention Interventions in accordance with the MGA, such as a viability review, or directives issued pursuant to an inspection.	The municipality was not the subject of a Municipal Affairs intervention.	Municipal Affairs is not undertaking a formal intervention with respect to the municipality.	No.
Tax Base Balance The proportion of the total municipal tax revenue generated by residential and farmland tax base.	The municipality’s residential and farmland tax revenue accounts for no more than 95 per cent of its total tax revenue.	The municipality can rely on its non-residential tax base to generate a portion of its tax revenues.	23.45%
Tax Collection Rate The ability of the municipality to collect own-source revenues, (e.g. property taxes, special taxes).	The municipality collects at least 90 per cent of the municipal taxes levied in any year.	The municipality is able to collect its tax revenues to meet budgeted commitments and requisitioning obligations.	97.16%
Population Change The change in population of the municipality over the past ten years.	The population has not declined by more than 20 per cent over a ten-year period.	The population of the municipality is stable or growing.	12.53%

Indicator and Description	Expected Result	What It Means	Rocky View County Result
Current Ratio The ratio of current assets to current liabilities.	The ratio of current assets to current liabilities is greater than 1.	The municipality is able to pay for its current financial obligations using cash or near-cash assets.	2.89
Accumulated Surplus/Deficit The total assets of the municipality net of total debt.	The municipality has a positive surplus.	The municipality has more operational assets than liabilities.	\$129,723,982
On-Time Financial Reporting Municipality successfully submitted its completed annual financial statements by the legislated due date.	The municipality's financial statements and financial information are received by Municipal Affairs no later than May 1st.	The municipality is preparing its audited financial reports on a timely basis.	Yes.
Debt to Revenue Percentage The total amount of municipal borrowings as a percentage of total municipal revenues.	The municipality's total borrowings represent less than 120% of its total revenue.	The municipality has maintained reasonable levels of borrowing debt.	39.67%
Debt Service to Revenue Percent The total cost of making scheduled repayments (including interest) on borrowings as a percentage of total municipal revenues.	The municipality's total costs for borrowing repayments do not exceed 20% of its total revenue.	The municipality has assumed a reasonable level of borrowing repayment obligations.	4.11%
Investment In Infrastructure The total cost of annual additions to tangible capital assets relative to the annual amortization on all tangible capital assets - measured as a five year average.	The municipality's average capital additions exceed the average amortization (depreciation).	The municipality is replacing its existing tangible capital assets and investing in new assets and infrastructure at a rate exceeding the estimated wear or obsolescence of its existing assets.	2.05
Infrastructure Age The net book value of tangible capital assets as a percentage of the total original costs.	The net book value of the municipality's tangible capital assets is greater than 40% of the original cost.	The municipality is replacing existing assets on a regular basis.	52.67%
Interest in Municipal Office The number of candidates running in a municipal election relative to the total number of councillor positions up for election.	The number of candidates exceeded the number of councillor positions.	The ratio of candidates to total council positions measures the willingness of electors to run for municipal office.	2.71

MUNICIPAL TAX ENVIRONMENT

The County has strived to maintain competitive municipal tax rates both to ensure affordability for existing residents and to attract economic development. The County has achieved this through carefully managing our expenditures while providing the services that our ratepayers have asked for. Figure 2 below shows the County's municipal tax rates compared to other municipalities in the region. As shown, the County has some of the lowest municipal tax rates in the region.

Figure 2

2021 Residential Property Tax Rates		2021 Non-Residential Property Tax Rates		2022 Residential Property Tax Rates		2022 Non-Residential Property Tax Rates	
Foothills County	6.586	Calgary	16.513	Foothills County	6.438	Calgary	17.884
Chestermere	5.098	Foothills County	12.565	Cochrane	5.017	Foothills County	12.586
Cochrane	4.964	Mountain View County	10.497	Chestermere	4.812	Mountain View County	10.350
Airdrie	4.846	Airdrie	10.176	Airdrie	4.726	Airdrie	9.925
Calgary	4.825	Wheatland County	8.521	Calgary	4.695	Wheatland County	8.617
Wheatland County	3.539	Rocky View County	7.654	Wheatland County	3.416	Rocky View County	7.597
Mountain View County	2.948	Chestermere	7.239	Mountain View County	2.800	Cochrane	7.550
Rocky View County	2.551	Cochrane	6.711	Rocky View County	2.532	Chestermere	7.239

Maintaining competitive municipal tax rates is also achieved through balancing the tax burden between residential and non-residential assessment categories. Currently, the County's non-residential assessment is taxed at a rate that is 3 times higher than the residential rate. This differential has changed over time, however, the current relationship between non-residential and residential tax rates has remained the same since 2009.

As growth continues in the County and the expenditure increases associated with growth increase as well, this balancing of the tax burden between residential and non-residential assessment categories will need to be revisited.

Figure 3 illustrates the results of the tax burden balancing discussed above as well as the continued increase in the County's non-residential assessment. This chart shows the change in the municipal tax payable by the different assessment categories over the last 10 years. As shown, in 2012 residential assessment in the County paid 53% of the total municipal tax and non-residential paid 47%. In 2022 residential assessment paid 44% of the total municipal tax and non-residential paid 56%.

Figure 3

DEBT MANAGEMENT

While debt can be a valuable tool that local governments use to advance their objectives, the MGA and related regulations place conservative limits on how much a municipality can borrow. As of December 31, 2021, the County had borrowed approximately 26% of its permitted debt limit (Figure 4).

The County has used debt for various projects and assets as shown in Figure 5. The repayment of this debt also varies. Figure 6 breaks down the repayment of outstanding debt by funding type. As shown, the repayment can be very predictable, such as tax funding, or unpredictable, such as development levies which rely on growth.

The County also uses its own resources to fund capital expenditures. A recent example is the \$9.6 million tax stabilization reserve funding that was used to extend water and wastewater servicing to the West Balzac area. This capital expenditure was advanced to facilitate growth in West Balzac. This investment, along with past investments are captured in a development levy and those that benefit or use the infrastructure are subject to the levy. The levies collected are intended to ultimately repay any amounts the County has fronted-ended, both through external debt and internal resources.

Figure 4

Debt Limit Calculation

Total	58,455,895	52,720,263

RESERVES

The County uses reserves for both short-term funding and long-term renewal. Figure 8 shows the breakdown of reserves held by the County as of December 31, 2021. Reserve management is guided by Council's reserve policy. In addition, the County is currently undertaking work to assist in determining if the current reserve and capital spending will sustain the County into the future.

2023 RESERVES

UNDERSTANDING HOW AND WHAT WE DELIVER

The County delivers many public services and looks for opportunities to improve on these services to ensure they are reliable, sustainable, and delivered in a consistent and cost-effective manner. Council's Strategic Plan identifies transparency and communication as important objectives for the County so that residents know how and what their money is spent on and can easily find information when they need it. Administration, as a part of improving its business planning, has begun to document services and service levels to help identify the impact of budget choices on those levels of service. The County will continue to analyze these services by documenting levels of service and costs, working to ensure that the policies and processes in place are consistent and effective, and identifying where service costs should be recovered directly from users to limit the pressure on property tax revenues.

OPERATING BUDGET SUMMARY

The County is required under the MGA to approve a balanced budget. That requirement means that if the County expects a reduction in revenue or increases in expenses, it has two primary options: it can increase revenues (principally through property taxes) or reduce expenses (principally through service level changes/reductions).

The draft 2023 operating and capital budget has been assembled with the assumption that the current service levels would be maintained. In light of that assumption, cost increases such as provincial policing and inflationary pressures require a municipal tax increase to balance the 2023 budget.

As shown in Figure 8, the 2022 consumer price index change year-over-year in October was 6.9% for Canada and 6.2% for Alberta. This price index was as high as 8.4% for Alberta in June 2022.

Figure 7

To balance the 2023 operating budget, administration has incorporated proposed assumptions as it relates to tax increase and live assessment growth. These include a 6% tax increase which amounts to approximately \$4,769,600, as well as live growth amount of \$2,200,000. Live assessment growth is a product of new construction of assessable structures and land.

Administration has provided the following material changes that reflect the proposed increase in municipal tax as a result of a tax increase and live assessment growth.

2023 Budget Adjustments		
Material Line Items	2023 Budget (\$)	Explanations
6% Tax Increase	4,769,600	
Live Assessment Growth	2,200,000	
Total Tax Increase And Live Assessment Growth	6,969,600

2023 FORECASTED EXPENSES

2023 FORECASTED REVENUES

NET COST OF SERVICE

Each year departments build their operating budgets based on their service level requirements. The County reviews and forecasts revenues for the coming year based on historical trends and anticipated changes. Based on expenditure requirements and forecasted revenues, the County determines the amount of property tax revenue that is necessary to fully fund annual operations. The following table identifies the net costs of the County's services.

2023 OPERATING BUDGET - COST OF SERVICE				
Service	2023 Budgeted Net Cost (\$)	APPROXIMATE AMOUNT SUPPORTED BY		
		Non-Residential Taxes (\$)	Residential Taxes (\$)	Residential Taxes Per Person* (\$)
Council	897,000	502,300	394,700	9.62

CAPITAL AND ENGINEERING SERVICES

SERVICE TYPE: External

DELIVERY MANDATE: The department provides an essential service through the delivery of new or improved tangible capital assets for the County to address the needs of existing residents as well as future growth. The Engineering Services component works to support the Planning and Development to ensure development meets the County's Servicing Standards for design and construction in addition to managing the contracting services of complex projects.

SERVICE VALUE: The department ensures that capital projects approved by Council are delivered on budget, on schedule, and in accordance with all applicable engineering, environmental and legislative requirements. The department plays a lead role in the evaluation and prioritization of the County's capital projects to ensure that what is planned, presented to Council and, ultimately, what is delivered is consistent with Council priorities.

SERVICES:

Services	Description	Level	2023 Service Adjustments
Capital Construction-Project Management	<ul style="list-style-type: none"> Construction of new, or upgrades to, County infrastructure including transportation infrastructure (roads, bridges), buildings, utility infrastructure, recreational amenities, and storm water infrastructure. This work encompasses the management of projects through the project lifecycle, from conception phase, through detailed design to construction and commissioning/turnover. 	<ul style="list-style-type: none"> Projects are managed according to an established project plan that is approved by Council, including scope, timelines, and budget. Information sessions and/or notifications are coordinated to provide information to stakeholders and impacted residents, including scope of work and planned schedule. Updates are provided regularly throughout the project. 	N/A
Capital Planning	<ul style="list-style-type: none"> Capital plans are developed by evaluating infrastructure needs and demands through prioritization and developing budgets for individual capital projects through preliminary engineering. 	<ul style="list-style-type: none"> Develop five-year capital plan in coordination with other County departments. Work continuously with other County departments to assess and prioritize department and County needs. 	N/A
Engineering and Project Management - Design and Support	<ul style="list-style-type: none"> Provide engineering and project management support to other County departments. Undertake conceptual designs and preliminary designs for budgetary and planning purposes. 	<ul style="list-style-type: none"> Provide design, project management and engineering support to other County departments. Conceptual and preliminary designs are undertaken to inform budget and project prioritization activities. 	N/A

Services	Description	Level	2023 Service Adjustments
Gravel Road Program and Gravel Pits	<ul style="list-style-type: none"> Manage the County's annual gravel road program in accordance with County non-hard surface road policies and procedures. Manage the County's gravel pits which includes the crushing, mining, and stockpiling of material as well as regulatory requirements for pit operations and reclamation. 	<ul style="list-style-type: none"> Gravel roads are re-graveled in accordance with County policy and procedure. Gravel pits are managed to ensure that supply is available for County purposes. Gravel pits are reclaimed in accordance with regulatory requirements, reducing the County's overall reclamation liability. 	N/A
Management of County Transportation Model	<ul style="list-style-type: none"> Direct and manage updates to County transportation model to predict County's long-range transportation plan. 	<ul style="list-style-type: none"> Update the transportation model based on County and regional growth. Generate the long-range transportation plan to inform planning activities. 	N/A
Technical Document Review	<ul style="list-style-type: none"> Review of submissions to determine if they meet County standards for compliance with Provincial and federal regulations and/or requirements, and for the protection of future tax supported expenditures 	<ul style="list-style-type: none"> Drawing reviews within four to six weeks. 	N/A
Technical Expertise to Other Departments	<ul style="list-style-type: none"> Provide technical expertise to other departments in support of their projects or processes. 	<ul style="list-style-type: none"> Meet needs of other departments in a timely and cost efficient manner 	N/A
Completion of Defaulted Projects	<ul style="list-style-type: none"> Completion of projects which developers have defaulted on their requirements under the development agreement to meet County standards and any required Provincial and/or federal requirements. 	<ul style="list-style-type: none"> Terms of signed development agreements and the County's servicing standards. Work on defaulted development agreements are paid for by the securities posted by the developer. 	N/A
Development Agreement Preparation	<ul style="list-style-type: none"> Draft development agreements related to the construction or improvement to municipal infrastructure necessary to support new development. 	<ul style="list-style-type: none"> Development Agreements are drafted in accordance with the conditions of approved subdivision or development permits. 	N/A

Services	Description	Level	2023 Service Adjustments
Construction Completion and Final Acceptance Certifications	<ul style="list-style-type: none"> Review submitted testing reports and inspect municipal infrastructure constructed under a Development Agreement. Upon acceptance of infrastructure, construction completion or final acceptance certificates are issued. 	<ul style="list-style-type: none"> Applications are received once construction is completed or the warrant period of the infrastructure has lapsed. Compliance review is between 7-14 business days for most developments. 	N/A
Design and Construction Standards	<ul style="list-style-type: none"> The department maintains and updates the County's Design, Construction, and construction standards referred to as the County Servicing Standards 	<ul style="list-style-type: none"> The County reviews standards on an ongoing basis. 	N/A
Administer Infrastructure-related Agreements	<ul style="list-style-type: none"> The department administers various infrastructure-related agreements such as infrastructure cost recovery, site improvements, and servicing 	<ul style="list-style-type: none"> Agreements are drafted as per the conditions of approved subdivision or development permits and are administered as new development applications are received. 	N/A
Offsite Levy Bylaws	<ul style="list-style-type: none"> The department reviews and updates the County's transportation, water, wastewater and stormwater offsite levy bylaws taking into consideration new growth, new infrastructure and completed infrastructure projects that were contained within the bylaws. 	<ul style="list-style-type: none"> The bylaws are reviewed annually in accordance with the MGA. UTILITY SERVICES

SERVICE TYPE: External

DELIVERY MANDATE: The Utility Services department operates in accordance with appropriate federal and provincial regulatory approvals and licenses, in addition to the County's *Water and Wastewater Utilities Bylaw*, *Master Rates Bylaw*, and the Solid Waste Servicing Strategy, all as amended from time to time. The essential services provided help to ensure the safety, health, and quality of life for County residents and businesses. Our goal is to provide services on a user-pay basis where it is possible to operate at a net-zero cost to the County.

SERVICE VALUE: The department's scope of service requires the Utility Services team to collaborate extensively with the public, non-County service providers, government regulators, and with a variety of other County departments to provide County residents and businesses with a safe and reliable supply of essential services.

SERVICES:

Services	Description	Level	2023 Service Adjustment
Residential Waste Collection Services	<ul style="list-style-type: none"> Residential curbside collection of organics, recycling, and solid waste in Langdon, including proper processing (composting and recycling) and disposal (landfilling). Automated cart collection (blue, black, and green bins) is used to deliver the service. 	<ul style="list-style-type: none"> Applicable to communities with population densities > 400 people/km². Weekly automated curbside collection of recycling and waste. Organics are collected bi-weekly for six months of the year and weekly for six months. Provide varying black cart sizes based on customer choice, with corresponding monthly rate. 	N/A
Recycling and Waste Drop-off	<ul style="list-style-type: none"> The County operates several fixed and mobile drop-off centres across the County that enable residents to dispose of their waste and recycling material. Inter-municipal agreements enable County residents to access drop-off centres in neighboring municipalities. 	<ul style="list-style-type: none"> Applicable to communities with population densities < 400 people/km². Transfer sites open two days per week during set hours of operation. Chuck wagon open one day a week at six sites across the County. Every resident has access to a drop-off centre within no more than a 15 km radius. 	<p>Introduction of plastics recycling at Springbank.</p> <p>Expand use of cashless methods of payment at additional sites.</p>

Services	Description	Level	2023 Service Adjustment

LEGAL SERVICES

SERVICE TYPE: Internal/External

DELIVERY MANDATE: Legal Services supports the legal needs of all County departments by engaging and directing external legal services while providing general oversight of the County's legal budget and the County's potential and current litigation. In addition, the department manages the County's insurance policies, procedures, and claims, and facilitates the public's access to information according to Alberta's *Freedom of Information and Protection of Privacy Act* (the "Act"). Through its services, the department plays a critical role in supporting the mitigation of financial and legal risks to the County.

SERVICE VALUE: Being both an internal and external service provider, the Legal Services department provides value to a diverse customer base by focusing on the following key objectives: timely service, leveraging expertise, cost-effective solutions and a commitment to continual analysis and updating of processes and procedures to ensure operational effectiveness and legislative compliance, as applicable.

FIRE SERVICES AND EMERGENCY MANAGEMENT

SERVICE TYPE: External

DELIVERY MANDATE: The department is mandated by Council and operates in accordance with provincial legislation and County Bylaw. The *Safety Codes Act*, *Emergency Management Act*, *Fire Services Bylaw*, *Fire Hydrant Bylaw*, and *Emergency Management Bylaw* drive the department's service response.

SERVICE VALUE: The department is a critical part of creating a safe and resilient County. Frontline response to fire, rescue, medical emergencies and the protection and safety of people and property. The department ensures that plans are in place to respond to disasters and other emergencies and coordinates the efforts of staff and external partners.

The proactive measures taken by the department to educate the public on best practices for fire safety helps to reduce the risk of incidents. The inspection of buildings and other assets helps to identify deficiencies that would otherwise pose an unnecessary risk to people and property.

SERVICES:

Services	Description	Level	2023 Service Adjustments
Emergency Management	<ul style="list-style-type: none"> Development, coordination, and execution of plans, measures, and programs pertaining to mitigation, preparedness, response, and recovery. 	<ul style="list-style-type: none"> The County maintains an up-to-date emergency plan and is able to stand up an Emergency Coordination Centre within two hours of a major event. The department provides emergency management training to all County staff. 	N/A
Business Continuity	<ul style="list-style-type: none"> Coordinate, assess, develop, and communicate business continuity and recovery requirements for all departments. Provide specialized skills and knowledge to mitigate exposure during disruptions of service due to emergencies or disasters. 	<ul style="list-style-type: none"> The County has an updated continuity plan for each department. Business continuity plans are reviewed and updated every two years. 	N/A

Services	Description	Level	2023 Service Adjustments
Mutual Aid	<ul style="list-style-type: none"> Negotiate and maintain contracted partnerships with partner municipalities to provide and receive emergency services where and when required. Three types of partnership agreements: Contract - Fire services are provided by a contractor within a defined service area. Automatic mutual aid - Fire services apparatus may be provided automatically without request if resources are available. Mutual aid - Fire service apparatus may be provided, upon request, if resources are available. 	<ul style="list-style-type: none"> The County's mutual aid partnerships agreements are renewed every five years. 	Review of agreements to ensure that the service is appropriately matching the levels of funding.
Community Prevention and Preparedness Education	<ul style="list-style-type: none"> Engage the community in non-emergency settings to provide prevention, preparedness, safety awareness, and education through presentations, workshops, community events, and formal classes. 	<ul style="list-style-type: none"> Staff are available to assistance to community groups and other stakeholders. PLANNING

SERVICE TYPE: External

DELIVERY MANDATE: *The Municipal Government Act* requires the County to have a Municipal Development Plan (MDP) and a Land Use Bylaw (LUB) to guide growth and development. The Planning department monitors, reviews, and updates the County's MDP and LUB in accordance with direction from Council. The department also prepares community-level land use plans (Area Structure Plans) to implement the MDP's overall growth strategy.

Other required department functions include the processing of planning and development permit applications, management of Calgary Metropolitan Region Board and intermunicipal planning matters, and the preparation of master plans relating to parks, open space, and active transportation within the County.

SERVICE VALUE: The department provides the long-term planning framework for the growth of sustainable and diverse communities in the County. It provides important representation of the County in regional and intermunicipal planning forums, and manages the implementation of development that supports orderly economic growth within the County and Calgary region.

SERVICES:

Services	Description	Level	2023 Service Adjustments
Municipal Development Plan (MDP) (Planning Policy)	<ul style="list-style-type: none"> Monitor, review and update the MDP, as the County's principal statutory plan for managing growth and development. 	<ul style="list-style-type: none"> MDP outlines timing for implementation and monitoring of actions. 2023 CAPITAL BUDGET

PROCESS

Every year, departments identify capital projects for the upcoming budget year and provide planned capital project activities for the next five years (2024-2028).

Administration reviews the capital requests from departments and conducts an evaluation to determine those that will be brought forward for Council consideration. It is important to note that Council may make additions to the County's list of capital projects, but those additions must also consider the sources of funding for those projects.

CAPITAL PROJECT REVIEW

2023 CAPITAL PROJECT REVIEW	
Project Category	<p>Essential Projects - Projects that are required to go forward due to legal, regulatory, safety, or other minimum mandated requirements. Not achieving these would lead to legal action, fines, penalties, or high risk of liability against the County.</p> <p>Council Directed - These projects have been identified by Council as strategically important for the County and its residents.</p> <p>Priority - Includes projects required to maintain critical infrastructure at current service levels.</p> <p>State of Good Repair/Lifecycle - Includes projects that maintain existing capital infrastructure. These projects are not mandatory but if it is not undertaken, the current service level/condition of the capital asset will decline.</p> <p>Improvement (non-essential) - Projects that will increase the current service level such as new facilities or expansions to existing facilities.</p>
Community Impact	Does the project have wide-reaching community impacts, or does it only benefit a small segment of the community or a small group of individuals?
Budget Impact	Assess the return on investment for the project.
Financing	Consider the sources of funding for the project and the impact that it will have on taxes. Are there cost sharing opportunities or funding availability from external sources to advance the project?
Service Level Impact	Is there any impact on service levels to the public as a result of the project?
Project Readiness	The department and organization are ready for the change that the project may create.

PROJECTS

The following projects were submitted for inclusion in the 2023 Capital Budget.

The Capital Projects department uses a system that analyzes and assesses the County's roadway renewal needs. Various factors, including asset condition, determine the priority roadway projects that are to be completed in each budget year. Fleet Management has replacement schedules for vehicles and equipment.

2023 CAPITAL BUDGET			
Projects	Total Cost (\$)	New/Replacement	Description
Langdon Drainage - Glenmore Trail Diversion	3,500,000	New	Diversion of stormwater runoff from the upstream catchment of Langdon along Glenmore Trail towards Weed Lake, reducing the potential flooding within the Hamlet of Langdon.
Range Road 43 & Cochrane Lake Road West (Twp Rd 262 to Hyw 22)	4,800,000	New	Grade widening of 4.8 kms of paved road.
Township Road 250 - Preliminary Engineering (Realignment at Conrich Road)	110,000	New	Preliminary engineering to establish construction costs for the re-alignment of Township Road 250 at Conrich Road.
BF 01258 - Single 1524 mm dia CSP culvert - (HORSECREEKRD Between TWPRD284 and TWPRD290)	700,000	Replacement	Replacement of structure at the end of service life.
BF 06502 - Single 1451 x 1600 mm Ellipse SPCSP- (RGERD290 Between TWPRD290 and TWPRD292)	1,200,000	Replacement	Replacement of structure at the end of service life.
BF 08158 - Three Span Girder Bridge - (TWPRD233 Between RGERD275 and SECHWY791)	1,900,000	Replacement	Replacement of structure at the end of service life.
BF 08678 - Single 1524 mm dia CSP culvert - (RGERD14 Between BIGHILLSPRINGSRD and SECHWY567)	700,000	Replacement	Replacement of structure at the end of service life.
BF 72879 - 1-Span (6.1 m) timber bridge - (TWPRD283 Between RGERD51A and RGERD53A)	1,250,000	Replacement	Replacement of structure at the end of service life.
Balzac Fire Station Storage Garage	30,000	New	To replace/cover the fenced open storage area beside the fire station.
Fire Engine 107 Replacement #5649	100,000	Replacement	This is a deposit only; build time is 2 years.

2023 CAPITAL BUDGET			
Projects	Total Cost (\$)	New/Replacement	Description
Bragg Creek Engine (New) Pending FMP	80,000	New	New Engine to be stationed at the Bragg Creek Fire Station. This is a deposit only; build time is 2 years.
Car Replacement #5599 (Langdon)	80,000	Replacement	Replacement of a Langdon bushbuggy unit.
Replace Emergency Generator at Springbank Fire Station	70,000	Replacement	To replace the old emergency generator.
Portable Commercial Vehicle Weigh Scales and Levelling Mats	35,000	Replacement	Used for commercial vehicle enforcement. Replacement of equipment at the end of its lifecycle.
Cemetery Services - Water line and sewer hook-up	125,000	New	A permanent solution to the issue of poor and failed groundwater systems. This would eliminate the need for trucking water into the Rocky View Garden of Peace Cemetery.
Capital Fleet Replacement	1,600,000	Replacement	Replacement of end-of-life fleet.
End-of-life replacement of IT Equipment	185,000	Replacement	Replacement of IT Infrastructure including network switches, servers blade and chassis, security appliances, audio/visual equipment, etc.
TOTAL	16,465,000		

FUNDING SOURCES

A total of 17 projects worth \$16.4 million have been included in the capital budget for 2023. These projects support the County's continued investment and focus on ensuring the continued sustainability of assets and support for core service delivery.

Of the \$16.4 million in capital projects, \$795,000 is tax-supported funding. The County has prioritized external funding sources, including MSI, for eligible projects to minimize the impact on tax funding for capital.

2023 FUNDING SOURCES	
Provincial Grant	8,750,000
Range Road 43 & Cochrane Lake Road West (Twp Rd 262 to Hyw 22)	1,000,000
