

# Weeds

will tremble in their  
roots...

We will be spraying noxious weeds in Rocky View County throughout the summer. We control weeds every year to protect native plants, crop lands, and wildlife habitats from being displaced by invasive weed species.

This year we're spraying roadsides in division 5. Spot treatments will occur on County-owned land and roadsides throughout the municipality. For more information, please call Agricultural Services at 403-230-1401 or visit [www.rockyview.ca/weeds](http://www.rockyview.ca/weeds).
