 - ii. Perimeter black galvanized fencing, up to approximately 2.00 m (6.56 ft.) in height;
 - iii. EV Charging Stations; *as proposed*; and
 - iv. Site Grading (as required to meet conditions of this approval).

Prior to Release:

2. That prior to release of this permit, the Applicant/Owner shall submit a revised Landscaping Plan or written details that confirms:
 - i. the proposed total landscape area provided, in accordance with Section 4.4.3(d)(iii) of the *Balzac Area Structure Plan (ASP)*, Section 3.7.0 of the *Direct Control District 99 (DC 99)* and Section 26.11(c) of the County's *Land Use Bylaw C-4841-97 (LUB)*;
 - ii. the minimum coniferous tree height in accordance with Section 4.4.3(d)(xv) of the ASP; and
 - iii. the minimum shrub height or spread in accordance with Section 4.4.3(d)(xvi) of the ASP.
3. That prior to release of this permit, the Applicant/Owner shall submit confirmation details on any perimeter site fencing for the development, in accordance with Section 4.4.3(h) of the ASP, Section 6.7 of the Wagon Wheel Conceptual Scheme and Section 42 of the LUB. If proposed, revised fencing details that confirms black-vinyl chain-link fencing shall be implemented onsite.
4. That prior to release of this permit, the Applicant/Owner shall submit payment of the County's Community Recreation Off-Site Levy Bylaw *C-8550-2024*. The levy shall be calculated based on the total development area, in accordance with the base levy area rates.

5. That prior to release of this permit, the Applicant/Owner shall submit a Geotechnical Investigation in accordance with the County's Servicing Standards, in order to verify that the site is suitable for the proposed buildings/structures, site works, and deep utilities. *For areas with greater than 1.20 m (3.93 ft.) of fill (if any), a Deep Fill report is required.*
6. That prior to release of this permit, the Applicant/Owner shall confirm and demonstrate calculations for water and wastewater usage for the revised development proposal on the parcel to support the onsite Cost Contribution and Capacity Allocation Agreement and required Customer Servicing Agreement.
 - i. That if the expected demands exceed the 4.30 m³/day, the Owner shall purchase additional servicing capacity, in accordance with the County's Master Rates Bylaw, as amended.
7. That prior to release of this permit, the Applicant/Owner shall submit a detailed site wastewater servicing design, which will tie into the offsite East Rocky View wastewater system, in accordance with the County's Servicing Standards.
8. That prior to release of this permit, the Applicant/Owner shall submit a design drawing showing the location of sanitary sewer service connection and test manhole on the site for review and approval by Utility Operations, in accordance with the County's Servicing Standards. *The test manhole shall be located in an area easily accessible for the purposes of sampling and inspections. Please ensure that there is no conflict with shallow utilities and the manhole should not be located within any parking area. If the test manhole be located within private property an access easement will be required to be registered for monitoring and testing purposes.*
9. That prior to release of this permit, the Applicant/Owner shall submit a detailed site water servicing design, including adequate fire protection, for the proposed development in accordance with the County's Servicing Standards, which will tie into the East Rocky View potable water system. The design shall address the need for a pressure-reducing valve and backflow preventer and if required, shall be installed and an inspection report for the back flow preventer shall be sent to the County's Utility Operations.
10. That prior to release of this permit, the Applicant/Owner shall submit a site-specific stormwater implementation plan (SSIP), for the subject lands in accordance with the Crossroads Commercial Park Stormwater Management Plan, the County's Servicing Standards and provide for any necessary easements and rights-of-way for drainage. The plan must include but not be limited to details regarding any on-site retention, stormwater flow rates offsite into storm sewers/swales and storage volumes. The set of drawings shall also include proposed finished surface/grading plan (corner lot grades) and also address the need for an oil/grit separator.
11. That prior to release of this permit, the Applicant/Owner shall submit sediment and erosion control plan and report in accordance with County Servicing Standards. *As this site is greater than 2.0 hectares (4.94 acres), a full report is required.*
12. That prior to release of this permit, the Applicant/Owner shall submit a detailed site grading plan, in accordance with the County's Servicing Standards.
13. That prior to release of this permit, the Applicant/Owner shall submit a letter prepared by a transportation engineer to address if the analysis and traffic volumes in the Balzac Global Traffic Impact Assessment (TIA) report (December 2010, as amended) for these lands meet the criteria for the development. If updates to reflect revisions are required to the Balzac Global TIA report, this will be at the Applicant/Owner's expense. The letter shall also need to address if the proposed development is in accordance with the Crossroads Commercial Park Traffic Impact Assessment.
 - i. If not in accordance, a Transportation Impact Assessment will be required for the site to address the potential for off-site impacts. If the recommendations of the report require off-site improvements, then a Development Agreement shall be entered into.

14. That prior to release of this permit, the Applicant/Owner shall submit an access management plan in accordance with the County's Servicing Standards and Access Management Procedure 410.
15. That prior to release of this permit, the Applicant/Owner shall submit payment to the County for the supply and installation of a water meter and correlating remote transmitter unit, in accordance with the County's Master Rates Bylaw, as amended. *The water meter(s) shall be sized based on calculations provided by the Applicant/Owner.*

Prior to Occupancy:

16. That prior to site occupancy, the Applicant/Owner shall contact and obtain signoff from County Utility Operations for an inspection of the water meter, sanitary sewer service connection, and the sanitary test manhole.
17. That prior to site occupancy, all development components shall be completed in accordance with the approved plan and shall be in place prior to occupancy of the site and/or buildings and includes:
 - i. Confirmation of any installed rooftop or at-grade mechanical/electrical units and appropriate screening measures in place. *If units are visible, additional screening measures required to be installed, prior to approval, in accordance with Section 31.4 of the LUB; and*
 - ii. That should permission for occupancy of the site and/or buildings be requested during the months of October through May inclusive, then occupancy shall be allowed without final development completion provided that an Irrevocable Letter of Credit or refundable security in the amount of 150% of the total cost of completing all outstanding elements required, in accordance with the phasing plan, shall be placed with the County to guarantee the works shall be completed by the 30th day of June immediately thereafter.
18. That prior to site occupancy, the Applicant/Owner shall submit as-built drawings, certified by a professional engineer licensed to practice in the Province of Alberta. The as-built drawings shall include verification of as-built surface works, sanitary infrastructure, water infrastructure, storm-water infrastructure, pond volumes, liner verification, inverts and any other information that is relevant to Stormwater Management Plan onsite for the subject site.
 - i. Following receiving the as-built drawings from the consulting engineer, the County shall complete an inspection of the site to verify stormwater infrastructure has been completed as per the stamped examined drawings.
19. That prior to occupancy and prior to connecting to the offsite waste & water mains, the Owner shall enter into a Customer Service Agreement for wastewater and water for the subject lands.
 - i. That should the development require additional servicing capacity, above the site's allocated 4.30 m³/day, then the Applicant/Owner shall be required to submit payment for that additional capacity in accordance with the County's Master Rates Bylaw, as amended.

Permanent:

20. That if the Development Permit is not issued by **FEBRUARY 28, 2027**, or through an approved extension date, then this approval is null and void and the Development Permit shall not be issued.
21. That any plan, technical submission, agreement, or other matter submitted and approved as part of this Development Permit application or submitted in response to a Prior to Release or Occupancy condition and shall be implemented and adhered to in perpetuity.
