# Highway 8 Improvements

## Anticipated Traffic Impacts, Eastbound Highway 8 to Northbound Westbound Stoney Trail Closure

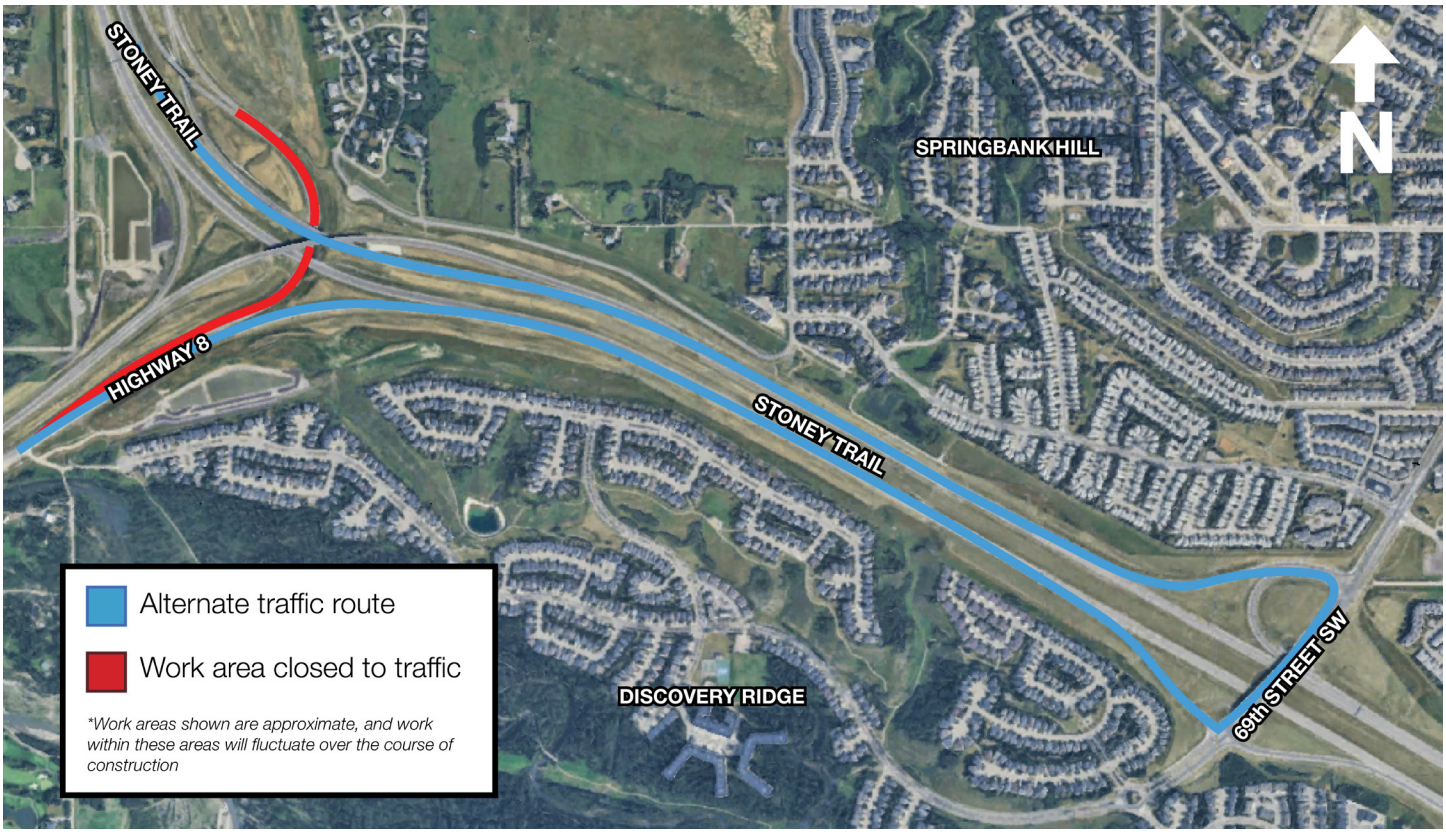

Starting this week, if weather conditions allow, the contractor is preparing to complete ongoing tie-in work between the newly aligned eastbound lanes and existing infastructure. Please note that if this work cannot move forward due to weather conditions, work will occur in the new year.

This work is entirely weather dependent. If conditions allow for the work to proceed, access to northbound Stoney Trail will be closed for eastbound traffic on Highway 8 to northbound Stoney Trail.

This closure is required to provide space for workers to remove the existing construction detour and complete the tie-in between Highway 8 and Stoney Trail. Traffic signage will be present, and an alternate route will be communicated through onsite signage when the

## Alternate Route

Access to northbound Stoney Trail for eastbound Highway 8 traffic will be provided via the 69th Street interchange. See map below for details.

# Highway 8 Improvements

## What to expect

### Traffic Impacts

Traffic impacts will be communicated through onsite signage. Members of the public are advised to plan ahead and give themselves extra time when travelling through the area.

### Speed Limit Reductions

A reduced speed limit will be in place throughout the work zone to help accommodate lane width reductions. Members of the public are advised to slow down and follow all posted signage.

### Increased Travel Times

Increased travel times are anticipated for northbound traffic while the closure is in place. These impacts are temporary and will cease upon completion of the work.
